4. GENERAL MANAGER’S REPORT

a) Mr. Dickey reviewed a list of current Authority projects and provided the status of each.

b) Comprehensive Plan Discussion: Mr. Dickey referred to the email he sent to Board members on January 6, 2014 suggesting changes to the PWC (County) Comprehensive Plan language. As stated in the email, the suggested language is not intended to be an official request, but rather a starting point for discussion with the County (for reasonable water line extensions [by developers] to improve reliability and water quality). Mr. Ruecker said he feels the existing plan language has served us reasonably well. There was general discussion about whether the Authority should provide these suggestions to the County if they have not asked us to review the language, as well as the reasoning behind the Authority asking to make these suggestions to the County. Board members decided to table this discussion for now.

c) Mr. Dickey advised the Board of a request the Authority received from PWC Executive Melissa Peacor to determine the feasibility of having public water service installed in coordination with the improvement of Route 28 out to Nokesville (from Vint Hill Road to Fleetwater Drive). Two documents were provided to Board members: (1) A list of advantages and disadvantages of building this line, and (2) A copy of the PWC 2008 Comprehensive Plan Thoroughfare Plan Map, showing the line’s proposed location. General discussion followed. With respect to our response to the County, the sense of the Board is that the Service Authority has reservations (to be provided in the response). However, if the Board of County Supervisors wishes to hold further discussion, the Authority is willing to enter into same. Mr. Dickey will send a draft reply letter to Board members for review and comment before sending to the County.

d) Copies of Draft FY15 Budget Guidance were distributed to the Board members. This subject will be discussed at the February Board meeting.

e) Mr. Dickey advised that it will be necessary to have a closed meeting regarding potential litigation, according to Code of Virginia §2.2-3711A7.

5. ATTORNEY’S TIME

Mr. Viani will present his report in a closed meeting.

6. CONSIDERATION OF MATTERS PRESENTED BY MEMBERS

While on the subject, a graph depicting the number of Water Main Breaks per Year was distributed to Board members. The number of breaks has decreased from 160 in 2005 to approximately 125 in 2013. Mr. Pannell expressed his appreciation to the Board for their commitment to maintaining the Authority’s infrastructure, renewing assets, etc. to help reduce the number of breaks.
