2. PRESENTATIONS

a) Effective Utility Management Criteria

Mr. Beefelt gave a briefing on the 2013 Performance Measurement Report, which is based on the Effective Utility Management (EUM) criteria, the Qualserve Performance Indicators Survey (Qualserve) and the Authority’s own performance measures. Consistent with last year’s results, the Authority’s performance, compared to Qualserve standards, was excellent. Discussion followed.

3. ACTION MATTERS

a) Approval of First Amendment to Agreement for Completion of Contract Work by Tendered Replacement Contractor for Construction Completion of the H. L. Mooney Laboratory, Administration and Public Education Facility

Mr. Dickey noted that this amendment was precipitated by the first contractor on this project going bankrupt. The Authority negotiated with the bonding company to have them pay for the costs associated with acquiring a new contractor, and has completed this reconciliation for the Board’s approval. Mr. Dickey requested the Board approve this First Amendment to the Agreement and also increase the originally endorsed amount of $11,584,650 by $356,980 to cover the additional work, performed by Keller Brothers and funded by Zurich, for a total authorization not to exceed $11,941,630.

Motion : Mrs. Eagles moved that the Prince William County Service Authority Board of Directors hereby approves the First Amendment to Agreement for Completion of Contract Work by Tendered Replacement Contractor for Construction Completion of the H. L. Mooney Laboratory, Administration and Public Education Facility for a total not to exceed $11,941,630.

Second : Mr. Gonzales
4. **GENERAL MANAGER’S REPORT**

   a) Mr. Dickey announced that the Annual Comprehensive Customer Satisfaction Survey results showed the Service Authority received a rating of 9.0 out of a possible 10.0. (Copies of the report were distributed to Members.) Mrs. Nelson provided information about how the survey was conducted and the types of questions asked. The Authority’s score has increased each year during the four years it has been conducted. A rating of 8 or above is considered excellent.

   b) Mr. Dickey reported on the construction of water and sewer lines and a pump station in Occoquan Forest. Staff will request approval of this project soon. A cost estimate was provided previously; the actual cost will be known after the project is bid, and has likely increased. However, this project is still less expensive than replacing the plant in that area. The unanticipated double-walling of the line contributed significantly to the price increase. Discussion followed. Dr. Kooyoomjian praised staff for their excellent work and public outreach efforts.

   c) Mr. Dickey advised the Budget Workshop will be held Monday, April 21, 2014 at 6:30 PM.

   d) Mr. Dickey met with Ms. Susan Roltsch, Deputy County Executive, and Chris Price, the County’s Director of Planning, about the Authority’s concerns regarding proffers and how, in the case of a recent proffer, the appropriate language requested by the Authority was not provided. As a result of the meeting, County staff will work with the Service Authority to include the Authority’s language in the proffers for future development projects.

   e) Mr. Dickey encouraged Board Members to check the Authority’s website often for updates on the News Rotator page. The Authority also has a number of followers on its social media accounts on Facebook, Twitter and LinkedIn. The Communications Division continues to find ways to increase communication about what the Service Authority does and keeps our customers and stakeholders informed about the value the Authority provides.

   f) Mr. Dickey announced the Authority’s annual Picnic is scheduled for Wednesday, May 14, 2014 (11:30 AM – 1:30 PM).

5. **ATTORNEY’S TIME**

   Mr. Viani will present his report in a closed meeting.

   Mr. Gonzales noted that the Authority’s social media efforts are helpful for friends, etc., especially regarding timely announcements of water main breaks, etc. He also appreciates all the reports staff prepares and the detail provided.
